Question 1

Correct

Mark 10.00 out of 10.00

Create a class ***Box*** that uses a parameterized method to initialize the dimensions of a box.

The class should have a method that can return volume.

Instantiate an object and print the corresponding volume in main() method.

Note: Dimensions are width, height, depth of double type.

For example:

Input	Result
5.2 8.5 6.4	282.88
6.3 7.9 5.6	278.71

Answer: (penalty regime: 0 %)

```
import java.util.*;
public class Box
{
    private double width;
    private double height;
    private double depth;
    public void setDimensions(double width, double height, double depth)
    {
        this.width=width;
        this.height=height;
        this.depth=depth;
    }
    public double calculatevolume()
    {
        return width*height*depth;

    }
    public static void main(String[] args)
    {
        Scanner sc=new Scanner(System.in);
        Box box=new Box();
        double width=sc.nextDouble();
        double height=sc.nextDouble();
        double depth=sc.nextDouble();
        box.setDimensions(width,height,depth);
        System.out.format("%.2f",box.calculatevolume());
    }
}
```

	Input	Expected	Got	
✔	5.2 8.5 6.4	282.88	282.88	✔
✔	6.3 7.9 5.6	278.71	278.71	✔

Passed all tests! ✔

Correct

Marks for this submission: 10.00/10.00.

Question 2

Correct

Mark 10.00 out of 10.00

Given a program in the code editor, Your task is to write code inside main method to call the methods using the myCar object. Create object with the name myCar

For example:

Test	Result
/*TC 1*/	The car is going as fast as it can! Max speed is: 200

Answer: (penalty regime: 0 %)

Reset answer

```
import java.util.*;
class Car{

  private int maxSpeed;
  public Car (int maxSpeed)
  {
      this.maxSpeed=maxSpeed;
  }
  public void drive()
  {
    System.out.println("The car is going as fast as it can!\nMax speed is: " + maxSpeed);
  }
}

  public class main
  {

  public static void main(String[] args)
  {
       //Write your lines of code here...
       Car mycar=new Car(200);
       mycar.drive();

  }
}
```

	Test	Expected	Got	
✔	/*TC 1*/	The car is going as fast as it can! Max speed is: 200	The car is going as fast as it can! Max speed is: 200	✔

Passed all tests! ✔
