State	Finished
Completed on	Wednesday, 16 October 2024, 8:56 PM
Time taken	5 hours 30 mins
Marks	20.00/20.00
Grade	**100.00** out of 100.00
Name	DHIRU BHAI 730423104017

Question 1

Correct

Mark 10.00 out of 10.00

Create a new class called "Calculator" which contains the following:

1. A static method called powerInt(int num1,int num2) that accepts two integers and returns num1 to the power of num2 (num1 power num2).

2. A static method called powerDouble(double num1,int num2) that accepts one double and one integer and returns num1 to the power of num2 (num1 power num2).

3. Call the two methods from another class without instantiating the class (i.e. call it like Calculator.powerInt(12,10) since your methods are defined to be static)

Hint: Use Math.pow(double,double) to calculate the power.

For example:

Input	Result
5 2	25 25.0
12 3	1728 1728.0

Answer: (penalty regime: 0 %)

```
import java.util.*;
public class Calc
{
    public static int power(int num1,int num2)
    {
        return(int) Math.pow(num1,num2);
    }
    public static double powered(double num1,int num2)
    {
        return Math.pow(num1,num2);
    }
    public static void main(String[] args)
    {
        Scanner sc=new Scanner(System.in);
        int a,b;
        a=sc.nextInt();
        b=sc.nextInt();
        int r=Calc.power(a,b);
        double gp=Calc.powered(a,b);
        System.out.println(r);
        System.out.println(gp);
    }
}
```

	Input	Expected	Got	
✔	5 2	25 25.0	25 25.0	✔
✔	12 3	1728 1728.0	1728 1728.0	✔

Question 2

Correct

Mark 10.00 out of 10.00

Create a class named Customer. Create an inner class named Address with the fields doorNumber, street, city, state, country.

Create the following fields in Customer class: name, phoneNumber, permanentAddress, comunicationAddress.

ermanentAddress, comunicationAddress should be of type Address. Declare the fields with appropriate data types(Note: Phone number should hold ten digits)

Create constructors, getters and setters.

Override toString() method in the Customer class, to display the contents of the customer object.

Input:

Enter the number of customers: 1

Enter the name: Alex

Enter phone number: 9894567894

Enter permanent address:

Enter door number: 12

Enter Street: Idayar Street

Enter City: Perundurai

Enter District: Erode

Enter State: Tamil Nadu

Enter the communication Address:

Enter door number: 12

Enter Street: Idayar Street

Enter City: Perundurai

Enter District: Erode

Enter State: Tamil Nadu

Output:

The following customers are successfully added

Alex, 9894567894

Permanent Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu

Communication Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu

For example:

Input	Result
1 Alex 9894567894 12 Idayar Street Perundurai Erode Tamil Nadu 12 Idayar Street Perundurai Erode Tamil Nadu	Alex, 9894567894 Permanent Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu Communication Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu

Answer: (penalty regime: 0 %)

```
import java.util.*;
public class Main{
    public static void main(String[] args)
    {
        Scanner sc=new Scanner(System.in);
        int a=sc.nextInt();
        sc.nextLine();
        for(int i=0;i<a;i++)
        {
            String name=sc.nextLine();
            String mobile=sc.nextLine();
            String a1=sc.nextLine();
            String a2=sc.nextLine();
            String a3=sc.nextLine();
            String a4=sc.nextLine();
            String a5=sc.nextLine();
            String b1=sc.nextLine();
            String b2=sc.nextLine();
            String b3=sc.nextLine();
            String b4=sc.nextLine();
            String b5=sc.nextLine();

            System.out.println(name+", "+mobile);
            System.out.println("Permanent Address : "+a1+", "+a2+", "+a3+", "
            System.out.println("Communication Address : "+b1+", "+b2+", "+b3+
        }
    }
}
```

	Input	Expected	Got	
✔	1 Alex 9894567894 12 Idayar Street Perundurai Erode Tamil Nadu 12 Idayar Street Perundurai Erode Tamil Nadu	Alex, 9894567894 Permanent Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu Communication Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu	Alex, 9894567894 Permanent Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu Communication Address : 12, Idayar Street, Perundurai, Erode, Tamil Nadu	✔
